

Job Overview

This position requires a minimum of 5 years of PeopleSoft experience in any PeopleSoft modules or a Subject Matter Expert with verifiable experience.

As a creative member of the Delivery organization, you are responsible for ensuring that a quality, integrated software solution is delivered in a timely manner, at budget, and to our client's satisfaction. This involves developing an effective relationship with the client to understand and manage their expectations. This is a client-facing position, providing thought leadership and engagement delivery services.

Responsibilities

Participate in the activities associated with the design, development, and support for PeopleSoft implementation or upgrade projects.

Provide engagement delivery services both as an individual and as a team member. Services include identifying needs, developing, influencing, and implementing proposals.

Lead, support, and collaborate with project teams to ensure system and business requirements are clearly documented and understood.

Manage multiple tasks and link those tasks to business initiatives.

Duties:

- Lead the application and business process consulting associated with the implementation of PeopleSoft applications.
- Performs fit/gap analysis to assess business needs with product offered functionality.
- Suggests and designs product configuration strategies.
- Configures product to meet business requirements and design specifications.
- Documents all stages of the software implementation/upgrade, including but not limited to business processes, requirements, fit/gap analysis, and product functional specifications.
- Collaborates with the project team to perform quality assurance product reviews throughout the upgrade and new product launchings.
- Support the client relationship for DLZP Group and new business development activities.
- Effectively track issues and risks, communicate status and escalate concerns via status reports and communication to management.
- Effectively communicate the advantages of PeopleSoft best practices to the client.
- Be a liaison for professional services when interacting with sales.

- Identify opportunities to position other service offerings
- Performs other duties as assigned by the Project Manager.

Qualifications

- Minimum of five years of PeopleSoft implementation leadership with current releases of PeopleSoft.
- Consulting experience either as an internal consultant or with a consulting/software company.
- Experience implementing any PeopleSoft modules
- Experience with PeopleSoft query
- Minimum of five PeopleSoft projects
- Familiarity with all aspects of the software development life cycle and expertise in utilizing software implementation methodology based on industry best practices.
- Experience with Business Processes for clients.
- Must be willing to travel (if required by customer).

Additional Preferred Skills

- Proficient organization, time management, and communication skills.
- Passion for customer service.
- Knowledge of Internet technology
- Have proficient interpersonal skills, be an effective communicator who can motivate and guide others and possess the ability to interact with all levels of an organization.
- Proficient analytical skills for debugging and problem-solving.
- Experience in business intelligence, analysis, or other related fields
- Knowledge of statistical tools and business reporting
- Sound attention to detail
- Ability to prioritize and multitask

Must be a U.S. Citizen and U.S. based.
